Jet Luxury Resorts- A Travel Agent's Secret Weapon

Forward thinking Travel Agents receive big company perks with small company feel from innovative new high-end luxury resort Management Company.

Jet Luxury Resorts, the premiere national condo hotel and resort management company, has fast become an invaluable and irreplaceable resource for ambitious, talented and experienced travel agents who find themselves on the cutting edge of the ever-evolving hospitality industry.

Since Jet Luxury Resorts is able to provide 4 and 5 star properties that travel agents are accustomed to at a better price point than that of comparable luxury hotels, Jet Luxury Resorts is able to offer the best of both worlds--high quality and luxurious accommodations at affordable prices. With rapid worldwide expansion, Jet Luxury Resorts has created international access to multiple properties while maintaining an intimate level of personalized service to travel agents providing the boutique experience to customers. Customers and travel agents alike benefit from this top of the line inventory offered at affordable prices with personalized service. In addition, the Jet Luxury Resorts properties are larger, most of the rooms offered have kitchens, multiple baths and extra amenities that are not found in a standard luxury hotel room.

Jill Lisman of ProTravel, a travel agent who works regularly with Jet Luxury Resorts, adds, "The benefits of booking my clients through Jet Luxury Resorts brings me back again and again. The company has a full reservation staff dedicated to assisting not only me, but my clients as well. They are able to offer beyond the individual hotel's perks, by assisting with services and benefits anywhere in the city being booked."

Jet Luxury Resorts provides a 'high touch' service to travel agents, allowing them to book high end property for their clients at not only affordable price points, but with personalized service as well. Jet Luxury Resorts pays industry standard travel agent commissions and many times pays above the industry average for its higher end properties.
