Jet Luxury Resorts, the premiere national condo hotel and resort management company, has just had their website, [www.jetluxuryresorts.com](http://www.jetluxuryresorts.com), receive the 2009 WebAward for outstanding achievement in Web Development. Jet Luxury Resort's website was designed in partnership with TravelCLICK, the leader in ecommerce solutions for the global hotel industry. Since its inception, Jet Luxury Resort's web traffic has seen a steady, steep increase in web traffic.

"On behalf of our entire team at Jet Luxury Resorts we want to thank Travelclick along with everyone who helped to create our website," states Richard Brosal, President of Jet Luxury Resorts. "When we launched our new site at the beginning of this year, we had hoped to set the bar very high regarding the look, feel, interactivity and user friendly capability of our website. This award means a lot to us and we are very happy to be one of the five winners out of all the applicants that entered worldwide."

The Web Marketing Association, which produces the WebAwards, was founded in 1997 to help set a high standard for Internet marketing and development of the best websites on the World Wide Web. Staffed by volunteers, this organization is made up of Internet marketing, online advertising, PR, and top web site design professionals who share an interest in improving the quality of online advertising, internet marketing, and website promotion. Now in its 13th year, the WebAwards is the premier annual website award competition that names the best Web sites in 96 industries while setting the standard of excellence for all website development. Nominations for best web site came from interactive agencies and web site marketing departments in more than 47 countries from around the world. The international WebAward Competition is the premier web site award program available today.

Jet Luxury Resorts was one of only five winners chosen out of thousands of applicants.
